## Inspection Actions

Following no response to previous message requesting contact, an unannounced visit was made to the centre. At the time of the visit the centre had a competition on and it would have been inappropriate to try to review the grading criteria. A copy of the criteria and my BHS business card was left with the Manager at the tack shop/reception requesting that they contact me within the next week to arrange a suitably convenient date to arrange a visit.

There are no concerns with this centre – for this reason they will need to remain in the current Highly Commended gradings until an effective review has been undertaken.
